## Compressed poplar wool nest

### RFB/5G-IR10

- Compressed poplar wool nests meet some behavioural needs of animals, such as gnawing, hiding and nesting.
- This product has the advantage of being a perfectly dry nest for the rodent.
- Easy to use, RFB/5G-IR10 nests are an original enrichment element perfectly adapted to nude mice.
- Each batch is tested for contaminants and has a gamma ray ionisation certificate.
