Pebble Toy 1/2

- Pebble Toy pineapple is a pebble made of a mixture of 70 to 80 grams of pure cellulose particles and 7 to 10 grams of controlled dehydrated fruit, first intended for human consumption.
- This mixture is compacted under precise conditions, in the absence of any binder, to obtain a cylindrical pebble 5 cm in diameter and 3 to 3.5 cm in length.
- The Pebble toy can be adapted to different primates (size, species...), and is easy to use.
- Size, hardness, mass or fruit concentration can be adjusted on demand
- Pebble Toy Pineapple is reproducible in composition, easy to distribute and attractive to animals.
