

Data sheet

Poplar chips + corn cobs RM20/MP8

Anibed
BEDDING & ANIMAL WELFARE

- RM20/MP8 is made of coarse poplar grain for animal welfare and fine corn cob grain for optimal absorption.
- Mice spontaneously build their nests with the larger elements contained in RM20/MP8. The coarse poplar grain size separates the mice droppings from the surface of the bedding. This prevents the animals from lying on their droppings, unlike using pure corn cob.
- The RM20/MP8 is particularly effective after autoclaving.
- The RM20/MP8 is suitable for use in ventilated racks.

Description

Product

- Wood type : Poplar MP8 (50%)
- Corn shavings : EU GRITS 20/30 (50%)
- Grain size poplar MP8 : 3.15mm to 6.3 mm
- Grain size EU GRITS 20/30 : 0.56 mm to 1.5 mm
- Density : about 300 kg/m³
- Dust content below 355 µm : close to 0%
- Moisture content : 10 to 12%

Characteristics*

- 12.5 kg woven polypropylene bag (reference : RM20/MP8)
- Other packaging : please contact us
- Ionisation by gamma rays possible

Packaging

*non contractual data 11/21
